← Export records

- All records between a specified time range can be exported as a worksheet (Currently in .csv format).
- To export records, set the start time and end time of the interval below and tap EXPORT NOW.
- Note that, exported files(.csv) are not backup files and you cannot restore data from these files.

From :
SEP 12, 2025

To :
SEP 30, 2025

EXPORT NOW

← Backup & Restore

- A backup file contains all your records, categories, accounts & budgets (at the time of backup). Using this file, you can restore the saved data later in case your device is lost or you accidentally uninstalled the app.
- Select a backup directory where you want WaySave to create backup files and search for backup files to restore.
- To make a backup, press BACKUP NOW, and

BACKUP NOW

RESTORE

SELECT/CHANGE DIRECTORY

 WaySave will create new backup files in your selected directory

← Delete & Reset

Delete all records

Delete all records, but keeping current accounts, categories and budgets

Delete all

Delete everything including records, accounts, categories and budgets

Reset all

Resetting the app to its initial state, deleting current records, accounts, categories and budgets

Pro version

You can support development by purchasing WaySave Pro (the pre version), which has additional features:

- More icons
- Multiple themes
- Passcode protection
- Smart input in widgets
- Yearly view mode
- 3 & 6 months view mode

Note :

1. WaySave Pro is a separate app, not a subscription.
2. You can easily move your current records and data after instralling WaySave Pro.
